Sorry didn't make this weeks city council meeting either, trying to watch live and comment but doesn't work.

Anyways, think Gilton should go with fee for service if they just to across the board raise prices as some of us don't even have garbage weekly (single with trash compactor) also I mulch and redoing yard were by have rarely green trash. Don't by recyclables. Yet will be charged increase as a family of 6.... ??? In retirement and enough of all cost going up with little or minimal use.

Would like to see fee for service option.

Respectfully,
