Although these are the designated watering days for the City of Oakdale, we strongly encourage residents to water only when their lawn or plants truly need it. When the soil is already moist due to cooler temperatures or recent rainfall, it is not necessary to water to the full extent allowed by the schedule. Most common turf varieties in Oakdale require only one to two inches of water per week

If you have any questions regarding the watering schedule, please contact the City of Oakdale Public Works Department at (209) 845-3600. **OMC-3549**
