Subject: First Reading of Ordinance, to Amend Chapter 7 of the Oakdale Municipal Code Adopting the 2016 Building Codes with Local Amendments

I. BACKGROUND

Building codes are adopted every three years; our last adoption was in 2013. With the advent of the International Building Code, the state Building Standards Commission (BSC) incorporates the International Code into the California Building Code (CBC). The BSC has since adopted by reference the International Building Code and has set January 1, 2017 as the implementation of its enforcement statewide.

II. DISCUSSION

Local jurisdictions under the authority of Health and Safety Code section 17958 are permitted to amend the state codes as they relate to local climatic, geological, or topographical conditions. We have prepared local amendments to the California Building Code for your review and consideration for adoption into the Oakdale Municipal Code. The amendments to the state codes are required to be made after making expressed findings. You will find these at the beginning of the ordinance documents.

There are 2 proposed amendments to our codes, the first being the repealing of Article 334.14 of the Electrical Code. This will provide for less restrictive requirements in new and existing construction regarding the type of electrical wiring allowed in specific types of occupancies. The other amendment is where we added language for fee designation, Other Inspections Fees: Number 3. Inspections for which there is no fee specifically indicated "Or as determined by the building official" has been added to allow our customer base and staff greater flexibility with unusual projects or more appropriately; when project valuations are unreasonably low to provide cost recovery for actual costs to perform all required inspections and administrative duties relating to building permit issuance.

III. FISCAL IMPACT

There is no fiscal impact to the City.

IV. RECOMMENDATION

Staff recommends that the City Council introduce the Ordinance for first reading to adopt the 2016 Building Code with local amendments.

ARTICLE XII. RESERVED

SECTION 7-80. RESERVED

ARTICLE XIII. SYSTEM DEVELOPMENT CHARGES.

SECTION 7-90. PURPOSE

The city council has determined that it is reasonable and in the public interest to enact and impose systems development charges for the purpose of recovering a fair share of the cost of additional water, sewer, storm drain, street, fire, police and park facilities from those properties which, as part of their development and use, create needs for those expanded facilities. The council finds that the public would benefit from a long-range approach to the financing of such facilities. Experience has demonstrated that the lack of systems development charges casts an unfair burden on non-benefitting taxpayers and residents in the form of higher property taxes and bond issue costs. (Ord. No. 1173, § 2.)

SECTION 7-91. DEFINITIONS

As used in this article, unless the context otherwise requires:

(a) Building areas: The gross floor area of a building or the land area occupied by a structure other than a building, as the term "building" and "structure" are defined in the current edition of the Uniform Building Code.

(b) Land area: All surface area of any parcel, including building area, excepting any portion of the parcel within a recorded right-of-way or easement for public street or alley.

(c) Parcel or parcel of land: A platted lot or any other tract of land which is or may be lawfully occupied by a structure or structures or other uses including the yards and other open spaces required under the zoning ordinance or reasonably attributable to an existing or proposed use.

(Ord. No. 1173, § 2.)

SECTION 7-92. CHARGES ESTABLISHED BY RESOLUTION

Ordinance XXXX

Effective December 21, 2016

**IN THE CITY COUNCIL
OF THE CITY OF OAKDALE
STATE OF CALIFORNIA
ORDINANCE XXXX**

Development charges are imposed upon all parcels of land in the city, except those parcels exempted in section 7-94. Three computations are used to determine these charges:

- (a) Systems structure fee. An amount computed on the basis of the number of square feet in the building area.
- (b) Systems area fee. An amount computed on the basis of the number of square feet of land area.
- (c) General. The systems development charges shall be indexed with the Engineering News Record and adjusted on a quarterly basis.
(Ord. No. 1173, § 2.)

SECTION 7-93. DUE DATE AND COLLECTION

The systems development charge is immediately due and payable upon and concurrently with the issuance of a valid permit for connection to the city water and sewer system, or of a valid building permit, whichever occurs first. (Ord. No. 1173, § 2.)

SECTION 7-94. EXEMPTIONS

- (a) Temporary exemption. Any parcel of land located within the city on July 6, 1977, for which a complete and valid building permit was issued shall be exempt from systems development charges to the extent of the structure covered by that building permit and the land as it was constituted on July 6, 1977. Issuance of water and sewer connections permit are subject to the availability of the respective services under current city policy and this article is not intended to alter limitations or requirements otherwise imposed for issuance of the connection permits.
- (b) Exemption for certain additions and alterations. Alterations which do not increase the floor space of a structure or increase the land area occupied by the structure are exempt from all portions of the systems development charges. Additions to residential dwellings which do not constitute the addition of a living unit, as defined by the building code, are exempt from all portions of the system development charges.
- (c) Change in use. A change in use results whenever an application for a building permit is filed to expand an existing structure or construct a new structure

Subject: First Reading of Ordinance, to Amend Chapter 12 of the Oakdale Municipal Code Adopting the 2016 Fire Codes with Local Amendments

I. BACKGROUND

Fire codes are adopted every three years with our last adoption in 2013. With the advent of the International Codes, the State Building Standards Commission (BSC) incorporates the International Fire Code (IFC) into the California Fire Code (CFC). The BSC has since adopted by reference the International Fire Code and has set January 1, 2017 as the implementation of its enforcement statewide.

The BSC does not mandate the adoption of certain sections or parts of the model codes. Therefore, cities and counties must adopt ordinances specifically stating how they will administer the State's Building Standards. Each jurisdiction may draft requirements that are more restrictive than that mandated by the State.

II. DISCUSSION

Fire Codes

Local jurisdictions under the authority of Health and Safety Code section 17958 are permitted to amend the state codes as they relate to local climatic, geological, or topographical conditions. We have prepared local amendments to the California Fire Code, (CFC), for adoption into the Oakdale Municipal Code. The amendments to the state codes are required to be made after making expressed findings. You will find these at the beginning of the ordinance document.

Additionally, due to our contract with Stanislaus Consolidated Fire Protection District for Fire Department related services; we have amended and added sections to our Fire Code to provide clarification and flexibility when administering specific sections of the Fire Code. This added language, when specifically referenced, shares the authority to enforce provisions of certain code sections between the City of Oakdale and the Fire District when granted by the City Manager and/or through contractual agreement.

III. FISCAL IMPACT

There is no fiscal impact to the City.

**CITY OF OAKDALE
CITY COUNCIL STAFF REPORT**

Meeting Date: November 7, 2016
To: Mayor Pat Paul and Members of the City Council
From: Albert Avila, Finance Director
Subject: City Council Chambers Video and Broadcasting Production Equipment Replacement

I. BACKGROUND

The computer and camera systems currently used in recording and broadcasting City Council meetings were purchased in August 2007. The age of the systems along with advances in technology require replacement of these two (2) systems to facilitate improved public access of Council meetings both online and via television.

The computer stopped functioning at the beginning of October. A temporary “workaround” was installed in order to continue to record and broadcast the Council meetings on the internet. As of this time, we are not able to offer televised broadcasts on Comcast Cable.

II. DISCUSSION

In August of this year, Staff prepared a request for proposals for the replacement of the City Council Chambers video/audio recording and broadcasting equipment. Professional Video and Sound was the only company to submit a proposal, which exceeded our budget constraints. Staff has worked with this vendor on a plan to phase-in the necessary equipment replacement.

The first phase includes replacement of the cameras and the computer with digital equipment, which is the industry standard. This enables the recording and broadcasting of the Council meetings both online and via television. This also allows us to offer continuous broadcasting on channel 7 of community events and information. (Previously, meetings were only broadcast live, with Modesto meetings and information broadcast at all other times.)

The second phase includes the replacement of the audio (sound) system, the monitor (TV) positioned in front of the Council, the audio (voice only) recording for the City Clerk and other peripheral equipment. We anticipate funding for this phase to be available spring of 2018.

City Council Staff Report (Continued)

SUBJECT: City Council Chambers Video and Broadcasting Production Equipment Replacement
MEETING DATE: November 7, 2016

The proposal for Phase I from Professional Video and Sound is \$74,906.77 which is budgeted in account 270-1910-419-41-05.

III. FISCAL IMPACT

Each Fiscal Year, the Special Tax shall be levied on all Parcels of Developed Property according to the steps outlined below.

- Step 2:** Calculate the total Special Tax revenues that could be collected from Developed Property within the CFD based on application of the Maximum Special Tax rates determined pursuant to Section C above;
- Step 3:** If the amount determined in Step 1 is greater than or equal to the amount calculated in Step 2, levy the Maximum Special Tax on all Parcels of Developed Property in the CFD.

The Special Tax may not be prepaid.

SECTION H INTERPRETATION

The Administrator may interpret this Rate and Method as necessary to clarify any inconsistency, vagueness, or ambiguity.

SECTION I APPEALS

Appeals of any claim of incorrect computation of Special Tax or application of this Rate and Method may be made by the owner of an Assessor Parcel or such owner's duly-authorized representative by filing a written notice of appeal with the Administrator not later than on calendar year after having paid the disputed Special Tax. The Administrator shall promptly review the appeal and if necessary, meet with the property owner (or representative), consider written and oral evidence regarding the amount of the Special Tax, and decide the appeal. If the property owner disagrees with the Administrator's decision, the owner may then file a written appeal with the Council, whose decision shall be final. If the decision of the Administrator or the Council requires the Special Tax to be modified or changed in favor of the property owner, no cash refund shall be made for prior years' Special Tax levies, but an adjustment shall be made to the next Special Tax levy(ies) as appropriate. This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action by such owner.

MAXIMUM SPECIAL TAX**

1. Special Tax Rates

Table 1 below identifies the Maximum Special Taxes for Taxable Property within the CFD.

**TABLE 1
MAXIMUM SPECIAL TAXES
FISCAL YEAR 2007/08**

Type of Property	Maximum Special Tax Fiscal Year 2007-08
Single Family Residential	\$414 per Unit
Multi-Family Residential	\$276 per Unit

2. Special Tax Increases

In January 2008, and each January thereafter, all figures shown in Table 1 above shall be adjusted by applying the Average Increase, if any, in the Indices. Each annual adjustment of the Maximum Special Tax shall become effective on the subsequent July 1.

**SECTION D
METHOD OF LEVY**

Each Fiscal Year, the Special Tax shall be levied on all Parcels of Developed Property according to the steps outlined below.

- Step 1:** Determine the Special Tax Requirement, as defined in Section A above, for the Fiscal Year in which the Special Tax will be collected;
- Step 2:** Calculate the total Special Tax revenues that could be collected from Developed Property within the CFD based on application of the Maximum Special Tax rates determined pursuant to Section C above;
- Step 3:** If the amount determined in Step 1 is greater than or equal to the amount calculated in Step 2, levy the Maximum Special Tax on all Parcels of Developed Property in the CFD.
- Step 4:** If the amount determined in Step 1 is less than the amount calculated in Step 2, levy the Special Tax Proportionately on each Assessor Parcel of Developed Property so the amount of the Special Tax levy equals the Special Tax Requirement for that Fiscal Year.

**SECTION E
COLLECTION**

The Special Tax shall be collected in the same manner and at the same time as ordinary *ad valorem* property taxes, provided, however, that the CFD may collect the Special Tax at a different time or in a different manner if necessary to meet its financial obligations, and may collect delinquent Special Taxes through foreclosure or other means.

A Special Tax shall continue to be levied and collected within the CFD to fund the annual Special Tax Requirement in perpetuity.

SECTION F EXEMPTIONS

Notwithstanding any other provision of this Rate and Method, no Special Tax shall be levied on Public Property, except as otherwise provided in the Act.

SECTION G FORMULA FOR THE PREPAYMENT OF THE SPECIAL TAX

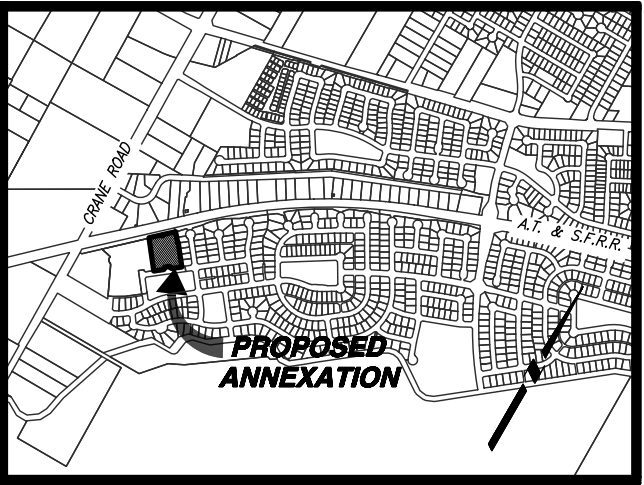

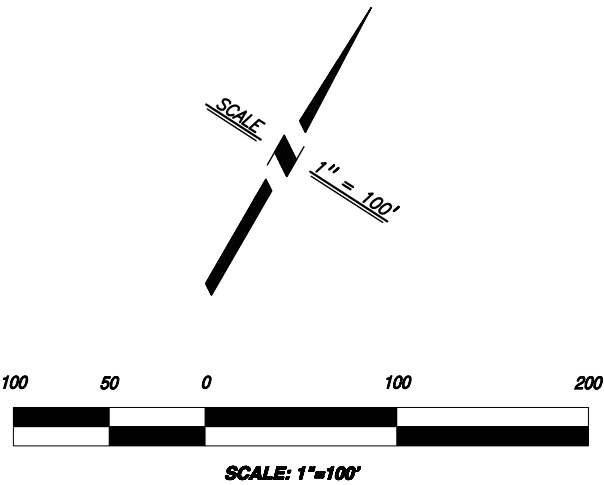

The Special Tax may not be prepaid.

SECTION H INTERPRETATION

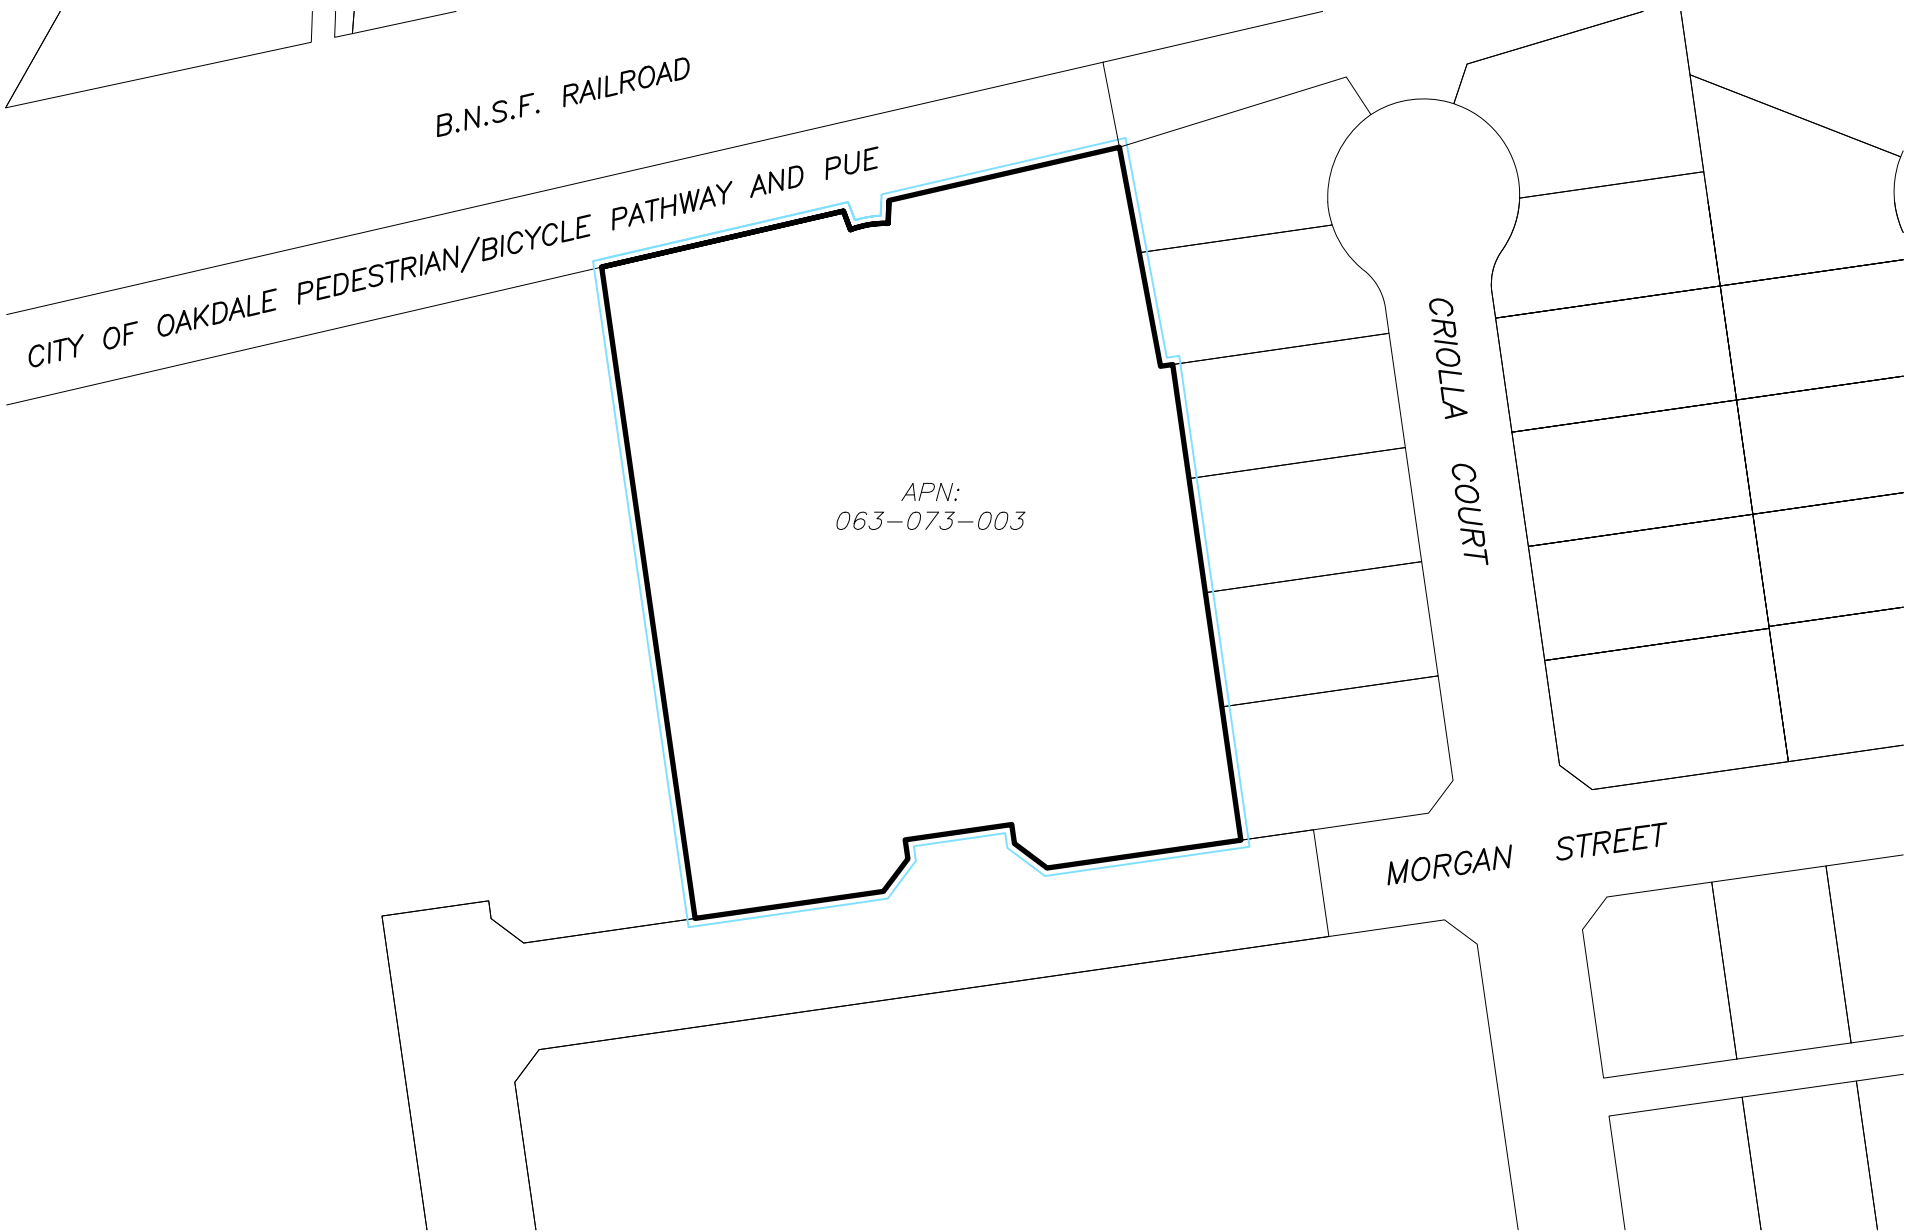

The Administrator may interpret this Rate and Method as necessary to clarify any inconsistency, vagueness, or ambiguity.

SECTION I APPEALS

Appeals of any claim of incorrect computation of Special Tax or application of this Rate and Method may be made by the owner of an Assessor Parcel or such owner's duly-authorized representative by filing a written notice of appeal with the Administrator not later than on calendar year after having paid the disputed Special Tax. The Administrator shall promptly review the appeal and if necessary, meet with the property owner (or representative), consider written and oral evidence regarding the amount of the Special Tax, and decide the appeal. If the property owner disagrees with the Administrator's decision, the owner may then file a written appeal with the Council, whose decision shall be final. If the decision of the Administrator or the Council requires the Special Tax to be modified or changed in favor of the property owner, no cash refund shall be made for prior years' Special Tax levies, but an adjustment shall be made to the next Special Tax levy(ies) as appropriate. This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action by such owner.
